Profile Summary: With over 8 years of experience, I bring strong expertise in quality management, process transformation and leadership within the automotive domain. PMP®-certified, I specialize in quality compliance, delivery excellence and project management, leading initiatives aligned with Automotive SPICE® 4.0, ISO 9001, TISAX, and VDA 6.4. Known for building high-performing teams and influencing stakeholders, consistently deliver measurable business impact. I drive zero-defect delivery, on-time execution, improved customer satisfaction, and seamless audit clearance.

Core Skills:

Technical Tools: Jira, Confluence, Codebeamer, MS Project, CANoe, dSPACE, Git, SVN, Power BI, MS Excel (Advanced), MS PowerPoint (Advanced), SharePoint

QM Frameworks & Compliance: ASPICE Level 3, ISO 9001, IATF, TISAX, VDA 2.0, ASIL (A–D), FMEA, V-Model, QMS, AUTOSAR, Automotive Cybersecurity

Project Management: Agile (Scrum, SAFe), Waterfall, Hybrid, PI Planning, Release Management, KPI Analysis, Risk Registers, RCA, OEM Program Management

Leadership & Business: Stakeholder Engagement, Vendor Management, Strategic Planning, Budgeting, Resource Allocation, Governance Reporting, Coaching & Mentoring

Experience:

Feb 2024 – Jan 2026 **ASPICE/ISO Quality Assurance Lead**

KPIT Technologies GmbH, Munich, Germany

- Spearheaded organization-wide ISO and ASPICE re-certification audits across Munich and Gaimersheim office, achieving **near-zero findings** and setting a **benchmark for audit excellence**.
- Owned end-to-end quality governance for automotive testing programs, ensuring ASPICE Level 3, ISO 9001, TISAX, and VDA 2.0 compliance, with sustained **audit readiness and zero critical non-conformities**.
- Drove process transformation, identifying and prioritizing Process Improvements (PIs), leading cross-functional impact analysis, and delivering scalable solutions with **reducing up to 12% FTE** in the quarter.
- Led continuous improvement initiatives, executing audits, gap assessments, and compliance reviews that **reduced audit findings by 12%** and accelerated process maturity across business units.
- Served as the primary quality partner to OEM stakeholders, aligning on KPIs, release gates, and compliance frameworks, **improving customer satisfaction by 18%** and enabling seamless program approvals.
- Institutionalized defect prevention frameworks, driving RCA workshops and proactive quality controls that **reduced recurring defects by 30%** and strengthened product reliability.
- Acted as the **face of the quality department**, delivering executive-level reporting, enhancing transparency, and influencing prioritization and strategic decision-making.
- **Built and scaled a high-performing QA team**, mentoring 5 engineers on VDA standards, governance, and audit readiness, significantly elevating team capability and delivery quality.
- Engineered **tailored quality frameworks**, aligning customer-specific requirements with organizational standards and **leveraging lean principles** to eliminate redundancies and improve operational efficiency.

Sep 2022 – Jan 2024 Automotive Project Management Office

KPIT Technologies GmbH, Munich, Germany

- Directed delivery of **€2M+ automotive software programs** for leading German OEMs, **ensuring 100% milestone adherence** through structured planning, risk management, and governance using Agile methodology.
- Led and scaled cross-functional teams of **25+ engineers**, driving **99% sprint on-time delivery** and **improving customer satisfaction by 15%** through strong stakeholder alignment and team leadership.
- Optimized defect management lifecycle, **reducing resolution time by 20%** by streamlining CCB workflows, KPM triage, and escalation governance. Ensured ASPICE, ISO 9001, TISAX, and VDA 2.0 compliance across development, testing, and release cycles.
- Enabled **high-performing team culture**, mentoring engineers and leads, fostering accountability, and driving collaboration across distributed teams.

Oct 2017 – Aug 2022 ASPICE/ISO Quality Assurance Engineer

KPIT Technologies Ltd., Bangalore, India

- Executed **QA strategy** and **compliance processes** aligned with ISO 26262, ISO 9001, VDA 2.0, ASIL, and QMS, including audits, peer reviews, and FuSa validation.
- Ensured **traceability and configuration management** (Git, SVN, Confluence), delivered audit-ready documentation, and **resolved defects** through RCA and corrective actions.

Certifications:

- Project Management Professional (PMP)®
- PMI Generative AI for Project Managers
- Google Project Management
- Major Engineering Project Performance
- Microsoft Office Certification
- Overview of Automotive SPICE
- Quality Improvement & Management
- Six Sigma Principles

Achievements:

- Awarded **“Client Champion”** (2024–25) for driving exceptional customer engagement, strengthening OEM relationships, and consistently exceeding client expectations.
- Recognized as **“High Flyer”** (2020–21) for exemplary performance, demonstrating strong ownership, delivery excellence, and consistent results.
- Honored with **“Comrade Award”** for building and enabling a high-performing QA team through structured mentoring, capability development, and training initiatives.
- Received **“Audit Excellence Award”** (2023–24) for significantly reducing audit findings and optimizing processes using lean methodologies, improving overall compliance maturity.
- Consistently rated as a **top performer** for 3 consecutive years, earning recognition as Team Champion for sustained delivery excellence and leadership impact.
- Successfully completed **First Time Manager Program**, strengthening leadership, stakeholder management, and people development capabilities.

Education:

2018 – 2020: MBA– Strategic Engineering Management, (Grade 7/10), Coventry University (UK)

2013 – 2017: Bachelors – Computer Engineering. (Grade 7.2/10), Anna University (India)

Language Proficiency:

- English: C2
- German: B1
