✉️ sussumitag@gmail.com

Profile Summary: Quality Assurance Specialist with 8+ years of automotive industry experience, specializing in ASPICE, ISO 9001, and process excellence. Known for driving continuous improvement, reducing defects by 30%, and delivering high-quality, audit-ready solutions. PMP® certified with strong project leadership experience managing cross-functional teams and ensuring on-time delivery in complex engineering environments.

Core Skills:

Technical Tools: Jira, Confluence, Codebeamer, Teamcenter, MS Project, CANoe, dSPACE, Git, SVN, Power BI, MS Excel (Advanced), MS PowerPoint (Advanced), SharePoint

Frameworks & Compliance: ASPICE Level 3, ISO 26262, ISO 9001, IATF, TISAX, VDA 2.0, ASIL (A–D), FMEA, V-Model, QMS, AUTOSAR, Automotive Cybersecurity

Project Management: Agile (Scrum, SAFe), Waterfall, Hybrid, PI Planning, Release Management, KPI Analysis, Risk Registers, RCA, OEM Program Management

Leadership & Business: Stakeholder Engagement, Vendor Management, Strategic Planning, Budgeting, Resource Allocation, Governance Reporting, Coaching & Mentoring

Experience:

Feb 2024 – Jan 2026 ASPICE/ISO Quality Assurance Lead

KPIT Technologies GmbH, Munich, Germany

- Managed quality governance for multiple automotive software projects, ensuring ASPICE Level 3, ISO 26262, TISAX and VDA 2.0 compliance.
- Conducted process audits, gap analysis, and compliance reviews, reducing audit findings and improving process maturity.
- Implemented defect prevention strategies, RCA workshops, and continuous improvement initiatives across engineering teams.
- Collaborated with OEM stakeholders to align quality metrics, release criteria, and compliance documentation.

Sep 2022 – Jan 2024 Automotive Project Manager

KPIT Technologies GmbH, Munich, Germany

- Delivered €2M+ automotive software programs for German OEMs using MS Project and Jira, ensuring on-time delivery and structured milestone tracking.
- Led cross-functional teams of 25+ engineers, achieving 98% on-time sprint delivery and improving customer satisfaction by 15%.
- Reduced defect resolution time by 20% through optimized CCB workflows, KPM triage, and improved governance processes.
- Ensured ASPICE, ISO 26262, TISAX, and VDA 2.0 compliance across development, testing, and release cycles.

June 2020 – Aug 2022 ASPICE/ISO Senior Quality Assurance Engineer

KPIT Technologies Ltd., Bangalore, India

- Supported QA activities in Agile Scrum teams (sprint planning, backlog grooming, reviews) and validated user stories using V&V techniques (MC/DC, regression, fault injection).
- Executed QA strategy and compliance processes aligned with ISO 26262, ISO 9001, VDA 2.0, ASIL, and QMS, including audits, peer reviews, and FuSa validation.
- Ensured traceability and configuration management (Git, SVN, Confluence), delivered audit-ready documentation, and resolved defects through RCA and corrective actions.

Oct 2017 - May 2020 Automotive Quality Assurance Engineer

KPIT Technologies Ltd., Bangalore, India

- Supported QA in Agile Scrum teams, ensuring compliance with ISO 26262, Functional Safety, and QMS standards with strong traceability and configuration control.
- Performed Functional Safety V&V and drove cross-team collaboration to improve defect detection, RCA, and continuous improvement.

Education:

2018 – 2020: MBA– Strategic Engineering Management, (Grade 7/10)
Coventry University (UK)

2013 – 2017: Bachelors – Computer Engineering. (Grade 7.2/10)
Anna University (India)

Certifications:

- Project Management Professional (PMP)® Certification
- PMI Generative AI for Project Managers
- Google Project Management
- Major Engineering Project Performance
- Microsoft Office Certification
- Overview of Automotive SPICE
- Quality Improvement & Management
- Six Sigma Principles

Language and Additional Information:

- Englisch (C2)
- German (B1)
- Tamil (Native)
- German Driving License Class B
- Legally authorized to work in Europe
- Open to relocate across Europe

Munich, 30.04.2026
